

Basic Genealogy and Family History

Thinking about starting your family history? Or maybe you've been working at it for a while but want to sharpen your research skills?

Join us for an eight-week course on Basic Genealogy and Family History this Fall. We will cover all the basics of research, both online and at libraries and archives, and how to organize your results. We will discuss types of records, where to find them, and how to evaluate and build on what you find – to help you “think like a genealogist.”

Lecturer: Jane E. MacNamara
